

Swegon DSIC-25 - Terms and Conditions

Data traffic

Each INSIDE Connect license includes data usage of up to 1 GB per month per unit*. Typical data consumption is approximately 150 MB/month/unit. If usage exceeds 1 GB/month/unit, Swegon reserves the right to charge an additional cost of €2 GB/month.

Duration of service

After the initial binding time, as specified in the sales agreement, the service will continue automatically until terminated. The invoice frequency will remain as initially agreed, unless the period was set to a frequency above one year, in which case the invoice will be sent annually.

Termination of service

Following the initial binding time, the service may be terminated by either party with one month's written notice.

**unit means a product connected to a router*
