Accessories

Disc valve:

TRAC. The disc valve is made of sheet steel and is painted.

Used on one side of the wall when only one sound baffle is required.

Wall sleeve:

VGC. Circular telescopic wall sleeve made of galvanized sheet steel.

Installation

Cut the opening according to the dimensions table.

Secure the mounting frame with screws on the wall. Press the sound baffle to engage it over the spring fasteners of the mounting frame, see figure 1.

Maintenance

Clean the baffle and sound absorbing material, if necessary, using a vacuum cleaner with a brush nozzle or with lukewarm water and dishwashing detergent.

The whole sound absorbing material can be replaced if necessary.

Figure 1. Installation.

Figure 2. Application options.

1. Concealed installation towards a corridor.
2. Visible installation towards the corridor, the SOTTO can be supplemented with a TRAC (2a) disc valve, or double SOTTO (2b).
3. As in 2b, but with VGC wall sleeve.
